CRI is a recognized leader in providing specialized services to a diverse group of post acute care providers – including skilled nursing facilities, assisted living facilities, and continuing care retirement communities. Our professionals have experience working with hundreds of providers of for-profit private companies, chain organizations, government-owned hospital authorities, and non-profit organizations.

The post acute care industry is one of the most heavily regulated and scrutinized in the country. Complying with regulations while balancing market pressures to control costs and generate positive margins can seem like an impossible task. Our goal is to assist providers in navigating these challenges so that they can focus on their primary objective of delivering quality patient care. We accomplish this goal by prioritizing attentive customer service and keeping our clients’ best interests at heart.
